## CERTIFICATIONS

Adaptability and familiarity with web applications are two of my greatest strengths. No matter which task I am assigned to do, I know I can complete it. As an IT professional I always keep myself up-to-date with modern technologies. Trial and error is my main weapon, as it keeps me motivated no matter the circumstances. If I am unaware of the job's requirements, that should not pose a problem since I know that a dedicated programmer will always find a creative solution to a complex problem.
